Skip navigation Back Find a course Keep learning. Stay competitive.Each hour of your continuing education—the time you spend reading articles, volunteering, attending events, and taking courses—equals one Scrum Education Unit® (SEU®). Put simply, the time you spend practicing and studying scrum and agile gives you a competitive edge, and so does leveraging those learnings to renew your Scrum Alliance certification. To ensure Scrum Alliance-certified professionals possess the most up-to-date, in-demand knowledge in the realm of scrum and agile, we require a certification-specific number of SEUs before you renew your certification every two years. This maintains the credibility of your Scrum Alliance certification.Visit your member dashboard to add new SEUs. This table shows, in hierarchical order, the different Scrum Alliance certifications you might hold and how many hours (SEUs) of continuing education you need to qualify for renewal. Alternatively, if you attend a secondary Scrum Alliance certification course, your previously earned certifications automatically renew. No need to worry about renewing your microcredentials! They never expire. Categories How to earn SEUsThere are four (4) categories you can choose from when selecting SEUs. The information provided below for each category describes your choices. LearningExamples include reading books or articles, preparing a presentation, and watching a webinar. VolunteeringAdd SEUs for any non-compensated services you offer or volunteering activities completed. OtherAdd all learning and activities to your log to show your knowledge growth. Add your educational activities to your Scrum Alliance dashboard to get credit for your continuous improvement. Remember that 1 hour of learning equals 1 SEU. So start logging your SEUs today!Log into scrumalliance.orgClick "Renewal" in the menu on the left side of your screenWhen you arrive at the Renewal page, scroll to "My SEU Log"On the right side of My SEU Log, click "Add SEUs"Follow the step-by-step instructions to add new SEUs Look out for the SEU icon!Did you know you get SEUs automatically for reading and watching content on the Resource Library? Log into your dashboard to start racking up the SEUs.As you explore the content on our website, you will see an icon indicating how many eligible SEUs you'll receive for each article or video. Frequently asked questions An SEU is based on a 1:1 ratio of hours to units. For example, if you attend a Scrum Gathering® and participate for the entire three days, you will earn a maximum of 24 SEUs. Attending a one (1) hour webinar is equivalent to one (1) SEU. Many educational activities easily count for SEU credit. Reading books, attending mentoring or training sessions, watching webinars, and volunteering are just a few ideas. In instances where you participate in learning opportunities where you are the student and not the trainer/coach, you can count these hours under the learning category. Conversely, in instances where you are the trainer/coach, these hours would best fit in your work experience on your Scrum Alliance profile rather than SEU credit. There are a few exceptions. In these cases, your training/coaching experience can be counted for SEUs:You have volunteered training for nonprofit organizations other than your employer (Volunteering category).You've researched and prepared training materials (Learning category).You are a co-trainer, learning from a more experienced trainer (Learning category). For all certification renewal cycles, SEUs must have been earned within thirty (30) months. Please include a few words or a short sentence describing the activity. Have additional questions? Contact us SF Skip navigation Back Find a course Job function Scrum master certifications bolster a wide range of professions. Whether you want to work as a full-time scrum master or effectively apply scrum in another role, this certification path will prepare you to leverage scrum and agile skills in various job functions. Learn more about Scrum Alliance Trusted by professionals at leading brands Engaging; lays a solid foundation for scrum masters "I would highly recommend this scrum master course to anyone interested in learning more about this agile project management approach. It is well-structured, engaging, and provides a solid foundation for anyone looking to become a scrum master or simply to improve their understanding of scrum." Certified ScrumMaster student Best investment I've made "Excellent course! The materials provided were straight to the point and easy to understand. Hands down one of the best investments I made by attending this course." Certified ScrumMaster student Engaging way to learn about scrum "Very thorough, clear, engaging, and fun learning all about scrum. I feel very prepared to incorporate scrum in my workplace and to become certified as a CSM." Certified ScrumMaster student Frequently asked questions The cost of the course varies by individual trainer. You can compare costs and other details in the course search listings. Scrum master students complete at least 14 hours of live training, and the trainer will cover a wide range of content. Most students prefer to do some additional preparation after the course to get ready for the test. The 50 multiple-choice questions have been developed to test your knowledge of the scrum framework and Certified ScrumMaster learning objectives so you can confidently demonstrate your expertise to employers, clients, colleagues, and businesses. A passing score of 74% or higher is required, and two attempts are included in the cost of your course registration when taken within the first 90 days after your course. A scrum master is the scrum team member tasked with fostering an effective and productive working environment and guiding others to understand scrum values, principles, and practices. Scrum masters tend to be people-oriented, have high emotional intelligence, and find joy in helping team members grow. CSM is ideal for those who want to excel and grow in their career as a scrum master. If you're a developer (especially software or hardware), then the Certified Scrum Developer course is a great way to increase your understanding of the scrum framework and agile engineering. On the other hand, the Certified Scrum Product Owner course levels up your understanding of scrum so you can deliver maximum value to your customers as a product owner. A scrum master certification is worth it if you want to work as an experienced scrum master, learn more about scrum, or simply expand your agile knowledge. A certification from Scrum Alliance helps you stand out from other job candidates by demonstrating your proficiency in this agile role. Fifty-five percent of employers will pay higher salaries for people with relevant certifications. In fact, CSM is the scrum master certification most demanded by employers. The Advanced and Certified Scrum Professional levels of certification will show your continuing growth in this skill area. Unlike the advanced-level courses, there are no prerequisites for Certified ScrumMaster, which is an introductory course for anyone who wants to become a competent, skilled scrum master. Familiarity with agile is helpful, and your instructor will provide introductory material for you to review before class. SF Scrum Alliance requires professionals to renew their CSM certification every two years. There are three main steps to renew CSM certification. Earn required SEUs, submit your SEUs to Scrum Alliance, and renew CSM certification. Let's go through these steps, and elaborate on how to renew CSM certification. Hint: Do not skip this article, you will find FREE CSM Certification Renewal resources throughout the article. Step 1 - Earn SEUs to Renew CSM Certification Before diving into how to earn SEU for renewing your CSM, you must know how many SEUs you need to renew your CSM. Scrum Alliance requires different numbers of Scrum Alliance SEU credits for different levels of certifications. CSM is a foundational level certification and requires 20 SEUs to be earned every two years. An SEU is based on a 1:1 ratio of contact hours to points. For example, if you attended a Scrum SEU Course and the duration of the course is 20 hours, you will earn a maximum of 20 SEUs. No limits or caps exist for earning SEU credits from a certain category. So, you can attend an online self-paced Scrum SEU Course, and earn all required SEUs for your CSM certification renewal. Your SEUs must have been earned within the renewal period, which is two years prior to your certification's current active-through date. SEUs must have been earned within thirty (30) months for all certification renewal cycles. You can read other requirements in our Scrum Alliance SEU article. How to Renew CSM Certification There are four main SEU categories that Scrum Alliance accepts for renewing CSM certification. Learning ("Most Popular) Events Volunteering Other You can read more in our How to Earn SEU for CSM Renewal - 4 Legit Ways article. Watch 4 Ways to Renew CSM Certification We've explained the 4 Scrum Alliance-approved ways to Earn SEUs in our following YouTube video. Watch now. Let's go through each SEU category one by one now. 1st Way - Renew CSM through Learning As we've highlighted in the previous section, earning Scrum SEUs through the learning category is the most popular way for renewing CSM certification. While there are several benefits of renewing CSM certification through SEU courses, here are the top few reasons: No Caps: There is no maximum limit for the learning category, so, you can earn all Scrum SEU needs in one program, and renew your CSM certification. You do not need to go elsewhere and search for how to earn SEU for CSM renewal. Self-Paced: You do not need to attend an event, conference, or seminar. You can follow the courses at your place, at your pace. Affordable: Depending on the program content, you can enroll in a self-paced Scrum Alliance SEU course bundle for ~$200-300. However, seminars or conferences start from $1,000, not only that, you may not earn all SEU needs in one event. Requires less effort: When you enroll in SEU Courses, all you have to do is follow the curriculum, earn SEUs, and renew your CSM certification. However, other SEU earning ways require significant effort from the certification holder such as creating content, sharing a presentation, authoring, etc. Less prone to Scrum Alliance® audit: Since the SEU training programs are used by many certified professionals, Scrum Alliance already has a track and record of the activities. However, for other categories, SEU submissions are more unique and may be more likely to hit an audit. How to Earn 20 SEUs to Renew Your CSM Easily San Francisco Business School offers a 20 SEU Course program. The program offers a self-paced business training program: Executive Leadership. SFBS awards a certificate of graduation. While earning SEUs, you will earn reputable business merits to highlight in your resume and LinkedIn. Watch how Natalia Earned 20 SEUs for CSM Renewal Natalia Olson is a CSM-certified professional. Natalia enrolled in the 20 SEU Program from SFBS and renewed her CSM. Watch now her CSM renewal journey. 2nd Way - Renew CSM Certification through Events You can earn SEUs for participating in events like Scrum Alliance Global Gatherings, Scrum Alliance Regional Gatherings, and Non-Scrum Alliance-Sponsored Events, as well as in User Groups events and activities. Presenting, coaching, and attending sessions all count as SEU-eligible activities. Typically, the duration of the activity determines the number of SEUs you will earn. For instance, if you attended a one-day Scrum Alliance SEU event, if the schedule of the event was 9 to 12 in the morning, and 1 to 5 pm in the afternoon, the total hours for the event would be 7 hours. So, you can earn 7 SEUs with this event. Attending events has benefits like expanding your professional network and learning the changing trends in your domain. However, there are some typical downsides of these events. Typically organized in big cities. If you are living in a relatively smaller city, you might not see any events to earn SEUs. Requires in-person attendance. Many of the events take a few days, and you have to take days off from your work to attend these events. Expensive. On average, these events are charged $1,000/day. So, for a two-day event, you need to pay around $2,000. Travel and accommodation, if needed, are not included in these fees. May not earn required SEUs at once. Although it requires a significant amount of time and money, you may not earn all SEUs through one event. Considering you are a full-time working professional and looking to earn the Scrum Alliance SEU hours you need in one step, you may opt for other alternatives to earn SEUs. 3rd Way - Renew Scrum Alliance Certification through Volunteering Scrum Alliance encourages professionals to give back to the community. Therefore, SEUs may be earned by providing non-compensated professional Scrum services. For instance, if you are volunteering in an activity for teaching for high school students, this activity can earn you SEUs for CSM renewal. The critical point here is, that you should not be compensated if you are in a volunteering activity. You can submit SEUs for the duration of the activity. For instance, if you attended a one-hour event, you can submit 1 SEU toward renewing your certification. Note that, these activities may not be available in your location if you are living in a small city. 4th Way - Certified Scrum Master Certification Renewal through Other sources SEUs may be earned through a variety of other learning activities as Scrum Alliance acknowledges that not all activities fit neatly into the categories above. For instance, if you are reading a book, writing an article about agile, you can earn SEUs in the Others category. More detailed learning SEU examples by scenarios. Note that, the following scenario is fictional to provide a better understanding of SEU reporting. Scenario - How Jane Earned SEU to Renew CSM Certification Jane works as a Scrum Master in a Fintech company. She earned her CSM certification 1 year ago, and her certification due date is approaching. Jane attends the San Francisco Business School's Free Scrum Alliance SEU Course Online Program. The program contains three self-paced courses, and each course is one hour in length. After completing the self-paced program, Jane can submit 3 SEUs to renew her CSM certification. Step 2 - Submit Earned SEUs to Scrum Alliance Once you earned the required SEUs to renew your CSM certification, the next step is submitting them to Scrum Alliance. Since you are a CSM-certified professional, you should already have an account on the Scrum Alliance website. To submit SEUs® toward your certification renewal, please do the following: Log in to your Scrum Alliance Dashboard Select SEUs from the navigation bar on the left From the Select an Activity Type dropdown, choose an activity type Here, you need to select the category you earned the SEUs (Learning, Events, Volunteering, or Others) In the Activity Description section, describe the activity This is where you explain the content of the activity. For instance, if you attended a course, you can submit the description of the course. In the Activity Date section select the date the activity was completed using the calendar widget Enter the hours and minutes spent on the activity number Select the blue Submit button at the bottom Please note that there is no limit to how many SEUs you can submit for a specific category. So, you can earn SEUs through any category. Step 3 - Pay the CSM Renewal Fee & Renew Your CSM Once you complete the required SEUs to renew your CSM renewal, the next step is paying the CSM renewal fee and completing your process. To renew your certification(s) after submitting the required SEUs, please do the following: Log in to your Scrum Alliance Dashboard Select SEUs from the navigation bar on the left Select the Renew Now button in the upper left Select the certifications you wish to renew Confirm your renewal and proceed with the payment Scrum Alliance requires a certification renewal fee at the end of the renewal process. For the CSM certification, the renewal fee is $100. Note that, this is part of how you renew your CSM certification. So, the CSM renewal fee is $100 for every two years. However, the CSM renewal cost will be higher than this amount. To earn SEUs, you will attend courses, events, or other activities. If you need to pay for those activities, the cost of renewing your certification will be beyond the CSM renewal fee paid to Scrum Alliance. How to Renew an Expired CSM Certification Scrum Alliance certifications are renewed on a two-year basis. If your certification has expired, you are still able to renew it successfully after the expiration date. If you renew past the expiration date, your certification will be extended for a full two years from the date that you pay to renew two. from the original expiration date.) There are several benefits of having CSM certification. Almost all agile roles require a reputable certification and CSM is for sure the most reputable one. Therefore, we recommend keeping your CSM certification active and renewing your CSM certification before the expiration date. Summary You need to get 20 SEUs every two years to renew your CSM certification. You can earn SEUs in four different categories: Learning, Events, Volunteering, and Events. Earning SEUs through Scrum SEU courses is the most popular among CSM-certified professionals. CSM professionals choose to earn SEUs through courses because they are self-paced, affordable, and require less effort. Since there is no cap for the learning category, professionals can earn all required SEUs at once through CSM SEU course programs. One of the other benefits of SEU courses is they are less prone to Scrum Alliance audits. See our Free Programs. No Credit Card Required. Skip navigation Back Find a course STAND OUT FROM THE CROWDA current and active agile certification enhances your job prospects and pay.77% of hiring managers say that certifications are important when vetting job candidates, and 55% will pay higher salaries for people who have relevant professional certifications. Plus, you'll maintain your access to members-only benefits with active certifications! Renew now Visit your dashboard Proof of continuous learning is one of the requirements for renewal. You'll be asked to submit a certain number of Scrum Education Units (SEUs) as part of the renewal process. Each hour you spend on activities like reading relevant scrum and agile articles, participating in events, and volunteering equates to one SEU®.Did you know? You can renew any other Scrum Alliance certification(s) you have by simply earning another certification. Skip the SEUs with this renewal route since you'll be learning a ton by taking another class. Explore the certifications to find your next course. Learn about SEUs Renewing your Scrum Alliance certification is a straightforward process that ensures your skills and knowledge remain current. Here's how to renew: Earn SEUs by attending events, webinars, reading, volunteering, and other relevant activities and learning. Each hour of your continuing education equals one SEU. Log in to scrumalliance.org and update your profile with details of the SEUs you've earned in the two-and-a-half years from your certification's expiration date. SEUs from reading Resource Library articles or consuming other SEU-qualifying content on our website are automatically tracked and logged in your dashboard! Check the table below. You can also earn another Scrum Alliance certification, which will automatically renew any others you hold, even if they're inactive. Below is a concise overview of the Scrum Education Units required and the associated renewal fees for each Scrum Alliance certification level. This table serves as a quick reference to guide you through your certification renewal process. No need to worry about renewing your microcredentials you've earned! They never expire. Other routes to renewal: Earn another certification from Scrum Alliance and all of your other Scrum Alliance certifications will be automatically renewed!Also, if you hold more than one certification but you don't want to take another course right now, here's how it works:Renew your highest-level certification with the SEUs and renewal fee. For your other certifications, you need to submit only half the number of SEUs (and no fee) for each of them, and they'll be renewed. For example, if you have an A-CSM and a CSPO, you'll renew your A-CSM as usual and submit half of the SEUs due for the CSPO.Or, if you hold multiple levels of certification within a single track (i.e. you have a CSM and an A-CSM), then you need only renew the highest-level certification with the SEUs and fee. Then your lower-level certification(s) within that track will renew automatically!Please visit our Help Center for more information. Maintain active certifications to continue accessing your member benefits. As a member of Scrum Alliance, you're on an agile journey that extends beyond the classroom. Enjoy continuous learning opportunities, community events, and mentorship from experts. Gain access to the world's largest agile network, offering support and guidance on your agile journey. Exclusive resourcesAccess exclusive members-only content, the Comparative Agility platform, and a curated selection of articles and videos. Event discountsGet discounts on tickets to Scrum Gatherings to network with agile professionals and improve your skills. Member directoryImprove your professional visibility and credibility. Open doors to career opportunities in the global agile community. To earn SEUs, you can choose from three main categories. Additionally, Scrum Alliance recognizes a wide range of learning activities that may not fit strictly into these categories. Think you've engaged in professional development? Then submit SEUs to get the credit you deserve! EducationRead books, attend mentoring or training sessions, watch webinars, or choose from many more independent learning activities that count toward SEUs. VolunteeringWe encourage you to give back to the community. You can earn SEUs by providing non-compensated professional scrum services, volunteering at an event, or helping out at other relevant functions. You are a member of the most educated, practiced organization in the agile community. At Scrum Alliance, we value your learning journey. That's why we ask you to demonstrate your excellence in the form of continuing education that you track with SEUs, so you can proudly maintain a certification with substance. Renew to maintain an active profile in the Scrum Alliance member directory, preserve an in-demand agile badge, get discounts to Scrum Alliance gatherings, and find opportunities to connect with other Scrum Alliance members. Each Scrum Alliance certification is on a two-year renewal cycle from the date you earn it. We will email you 90 days before it expires. You can renew it even after it expires, but it will be valid for two years from that renewal date. Renewing your highest-level certification automatically renews all your other certifications for two years (you may need to submit a certain number of SEUs for those other certifications). Learn more. The cost of renewal varies by the level of certification. For foundational-level certifications, the two-year renewal fee is $100. Advanced-level certifications require a two-year $175 renewal fee, while professional-level certifications are $250 for two years. For those with Certified Agile Leader certifications, the renewal fee is $100. You can renew your certification at any point after it expires. If your certification expires and is not renewed, you will be able to access your member benefits for 90 days. You cannot purchase SEUs. You earn SEUs by engaging in any kind of relevant continuous learning (reading, watching webinars, going to agile events, etc). Scrum Alliance certifications symbolize professional excellence and a growth-oriented mindset on part because of the SEU requirement. Scrum Alliance renewal has two requirements: a fee and SEUs. You cannot opt for one instead of the other. They must be submitted together. Taking any Scrum Alliance certification course will automatically renew any other certifications you have, even if those certifications are inactive. Have additional questions? SF Editorial Note: We earn a commission from partner links on Forbes Advisor. Commissions do not affect our editors' opinions or evaluations. If you've been looking at scrum master certification programs, you may have noticed a wealth of information online—but not that many details about cost. Earning Scrum Master certification often entails course fees, exam fees and renewal fees, though not every certification involves all of these. In this article, we give you a breakdown of scrum master certification costs. What Are Scrum Master Certifications? A scrum master certification shows that you understand the principles of the scrum framework and are qualified to lead scrum teams within that framework. Below are several options for earning scrum master certification. Some of these credentials are entry-level, and others are geared toward experienced scrum professionals. Certified ScrumMaster (CSM®) The CSM designation is an entry-level certification administered by Scrum Alliance. This credential covers the foundational elements of the scrum framework and signifies that you have a solid understanding of scrum and agile methodologies and can lead scrum teams to achieve their goals effectively. Advanced Certified ScrumMaster (A-CSM®) Also administered by the Scrum Alliance, the A-CSM certification serves those who have already completed their CSM and want to continue advancing their careers. This course provides in-depth training on increasing team accountability and scaling scrum and agile to multiple teams. Certified Scrum Professional – ScrumMaster (CSP®-SM) This course is administered by Scrum Alliance as well. It's designed for experienced practitioners who want to build on their previous training and learn more about motivating their teams to improve on scrum and agile methodologies. You earn A-CSM certification to be eligible for CSP-SM. The Disciplined Agile® Scrum Master (DASM) The DASM certification is administered by the Project Management Institute (PMI). This designation focuses on reaching organizational goals by combining fundamental principles of the agile methodology with the strategies of frameworks like scrum and kanban. Disciplined Agile® Senior Scrum Master (DASSM) Certification PMI also administers the DASSM certification. This certification serves those who are experienced in agile methodology by developing their skills so they can manage multiple agile teams and initiatives. Professional Scrum Master™ (PSM) There are multiple levels of this certification, all administered by Scrum.org. PSM I. There are no course requirements for this certification, so it best serves those who already know the scrum framework. Scrum.org suggests that candidates study the Scrum Guide or take an optional course before sitting for the exam. PSM II. This course picks up where Scrum.org's PSM I course left off. There are no course requirements. An in-depth exam involves real-world scenarios, so candidates should have a strong knowledge of scrum principles before they take the exam. PSM III. Scrum.org offers this certification to seasoned scrum professionals who want to continue to build their careers. This is a good option for those who want to mentor and coach individuals or teams working within the scrum framework. There are no course requirements. Registered Scrum Master™ (RSM) Scrum Inc. administers this entry-level certification, which covers the basics of scrum. Candidates learn to create a product backlog, prioritize tasks and manage a burndown chart. How Long Do Scrum Master Certifications Take? For each certification, we created a timeline doesn't include preparation time, so your time commitment may vary depending on how much you need to study. All up, you could spend anywhere from a few days to a few weeks working toward your certification. How Much Does Scrum Master Certification Training Cost? Costs vary depending on which training partner you choose for your certification. Some certification providers require candidates to complete their courses through specific training partners, so make sure to check before signing up for scrum master certification training. Below, we provide a general idea of what training costs for each Scrum Master certification. CSM. Course fees are typically between $350 and $1,300. A-CSM. Course fees are typically between $700 and $1,500 but may be lower or higher depending on who is teaching the course. CSP-SM. Course fees are typically between $850 and $1,800. DASM. PMI's online, two-day course costs $399 for PMI members and $499 for nonmembers. You may also take a two-day course through one of PMI's authorized training partners, which typically costs between $695 and $1,700. RSM. The training for this certification is a two-day course that costs $1,995 and includes the cost of the exam. How Much Do Scrum Master Certification Exams Cost? CSM. Up to two exam attempts are included with the cost of the course. Additional retakes cost $25. A-CSM. One exam attempt is included with the cost of the course. You must take the exam within 60 days after completing the course. You may have two additional retakes for $150 per attempt within that same period. PSM I. The exam is a $200 per attempt. Unlimited retakes are available for $200 per attempt. PSM II. The exam costs $250 per attempt. Unlimited retakes are available for $250 per attempt. course that costs $1,995 and includes the cost of the exam. How Much Do Scrum Master Certification Exams Cost? CSM. Up to two exam attempts are included with the cost of the course. Additional retakes cost $25. A-CSM. One exam attempt is included with the cost of the course. You must take the exam within 60 days after completing the course. You may have two additional retakes for $150 per attempt within the same period. DASM. One exam attempt is included with the cost of the course. You must take the exam 60 days after completing the course. You may have two additional retakes for $150 per attempt within that same period. PSM I. The exam is a $200 per attempt. Unlimited retakes are available for $200 per attempt. RSM. The exam is included in the cost of the course. Additional retakes cost $25. All exams must be taken within 30 days of completing the course. How Much Do Scrum Master Renewal Fees? CSM. $100 every two years A-CSM: $175 every two years CSP-SM: $250 every two years DASM: $20 for PMI members, $50 for nonmembers, annually DASSM: $50 annually PSM I: No renewal fee PSM II: No renewal fee PSM III: No renewal fee. $50 annually The Bottom Line When all is said and done, expect to pay between $200 and $1,995 for your certification course and exam combined. You might then pay $25 to $500 for each retake, depending on the certification. While a few certifications (namely the PSM credentials) are valid for a lifetime, most require a renewal fee annually or every two years. Renewal fees can range from $20 to $250. Featured Online Schools Learn about start dates, transferring credits, availability of financial credit and much more by clicking 'Visit Site' Skip navigation Back Find a course The Certified Scrum Product Owner (CSPO) prepares you for agile product delivery with a relentless focus on customer value and the return on investment of your efforts. Product owners know their markets and anticipate what customers need, helping their organizations rise to the top. Find a course View What a product owner:Defines the product visionManages the product backlogBridges the gap between stakeholders and product developersMakes decisions about trade-offsMakes decisions about order and scopeMaximizes the value of the productTirelessly keeps the customer at the center of what they doA product owner is a member of a scrum team, along with a scrum master and the developers who create the product.Successful product owners embody strong leadership qualities, marked by exceptional communication skills, empathy, and adaptability. Their ability to navigate evolving customer needs and market dynamics is fundamental to the role, typically toward products that exceed expectations. In the CSPO course, learning objectives cover the framework, principles, and values that make scrum work, plus key skills and tools you need to be effective. You will discover how to juggle multiple stakeholders' needs, get hands-on practice creating a product vision, and learn new ways to get to know your customers so that you can forge the right increment of value to bring to market next. The course centers on mastering agile principles, fostering collaborative teamwork, and managing the product backlog. Anyone who enjoys (or wants to become more familiar with) the business side of product or service development can benefit from taking the CSPO class. Product owners decide what the team will create next, ordering the work to ensure that the most valuable, impactful products reach customers at a regular cadence. The CSPO course is a good fit for anyone who wants to build in-demand product skills, including:Product managersBusiness analystsProject managersData analystsScrum team members This certification course is designed to equip individuals from various professional backgrounds with the skills needed to excel in product development roles. It offers practical knowledge and strategies to navigate product management, making it relevant and beneficial across various careers. Achieving a CSPO certification from Scrum Alliance can significantly elevate your professional standing in any industry. This globally recognized credential validates your knowledge and connects you with exclusive member benefits designed to support your continuous growth and success in the field. Here are some of the key advantages:Scrum Alliance certifications are among the top certifications demanded by employersThe need for continuous learning to maintain your CSPO certification signals to employers that you possess current, in-depth, and valuable skills, making you a more attractive candidateGain practical knowledge that you can immediately apply to improve processes and outcomes in your roleOpen doors to better salary and career opportunities, with 55% of organizations willing to pay more for certified agile professionals Choosing Scrum Alliance means you will earn a certification badge that is recognized by employers and recruiters globally.Established in 2001, Scrum Alliance provides certifications with substance: Once you earn the badge, you earn it for life. While your certification won't expire, you'll need to continue to grow your knowledge—by reading books, watching webinars, attending events, etc. Earn Scrum Education Units with every learning opportunity you complete. SEUs are required for certification renewal every two years. Learn about Scrum Education Units with this content because it prevents you from becoming outdated—a benefit to your employer and to you, too. Find your course Highly applicable, practical skill building As a product owner, you're looking outside of my organization for new ways to tackle everyday product owner issues (backlog management, refinement, sprint goals, etc.) This class was great for providing some new ideas I can bring into our organization. –CSPO student Get the tools you need to be a product owner I felt that I got a lot of information out of the class. I felt that I came away a lot more knowledgeable about being a scrum product owner. I have more tools to work with a future team. –CSPO student Frequently asked questions The CSPO certification is one of the most in-demand agile certifications in job descriptions worldwide. Earn this certification and leverage it in salary negotiations, job interviews, performance reviews, and other conversations about your ability to drive customer-centric products.For more information, please see the CSPO Learning Objectives. This course also covers the Scrum Foundations® learning objectives. Choosing between a Certified ScrumMaster (CSM) and CSPO depends on your career goals and interests. CSM focuses on scrum master skill sets, including coaching a team to use scrum and continuously improve as a team and individuals. CSPO is great for learning how to manage the product backlog, create roadmaps, and help the team address which features to create next. Both certifications are valuable, and your choice depends on whether you're more inclined toward coaching an agile team or delivering outstanding products. Renew your certification every two years by submitting the renewal fee and the required number of Scrum Education Units (SEUs). If you go on to earn the Advanced Certified Scrum Product Owner or Certified Scrum Professional Product Owner, then your CSPO certification will automatically renew when you renew a higher-level certification. Scrum Education Units are credits that you earn for any professional development and knowledge building you engage in. They're credits for learning! We require SEUs as part of renewal because Scrum Alliance certification signifies your professional excellence. Earn SEUs for reading, watching webinars, attending events, and more! Have additional questions? Contact us SF Skip navigation Back Find a course STAND OUT FROM THE CROWDA current and active agile certification enhances your job prospects and pay.77% of hiring managers say that certifications are important when vetting job candidates, and 55% will pay higher salaries for people who have relevant professional certifications. Plus, you'll maintain your access to members-only benefits with active certifications! Renew now Visit your dashboard Proof of continuous learning is one of the requirements for renewal. You'll be asked to submit a certain number of Scrum Education Units (SEUs) as part of the renewal process. Each hour you spend on activities like reading relevant scrum and agile articles, participating in events, and volunteering equates to one SEU®.Did you know? You can renew any other Scrum Alliance certification(s) you have by simply earning another certification. Skip the SEUs with this renewal route since you'll be learning a ton by taking another class. Explore the certifications to find your next course. Learn about SEUs Renewing your Scrum Alliance certification is a straightforward process that ensures your skills and knowledge remain current. Here's how to renew: Earn SEUs by attending events, webinars, reading, volunteering, and other relevant activities and learning. Each hour of your continuing education equals one SEU. Log in to scrumalliance.org and update your profile with details of the SEUs you've earned in the two-and-a-half years from your certification's expiration date. SEUs from reading Resource Library articles or consuming other SEU-qualifying content on our website are automatically tracked and logged in your dashboard! Check the table below. You can also earn another Scrum Alliance certification, which will automatically renew any others you hold, even if they're inactive. Below is a concise overview of the Scrum Education Units required and the associated renewal fees for each Scrum Alliance certification level. This table serves as a quick reference to guide you through your certification renewal process. No need to worry about renewing your microcredentials you've earned! They never expire. Other routes to renewal: Earn another certification from Scrum Alliance and all of your other Scrum Alliance certifications will be automatically renewed!Also, if you hold more than one certification but you don't want to take another course right now, here's how it works:Renew your highest-level certification with the SEUs and renewal fee. For your other certifications, you need to submit only half the number of SEUs (and no fee) for each of them, and they'll be renewed. For example, if you have an A-CSM and a CSPO, you'll renew your A-CSM as usual and submit half of the SEUs due for the CSPO.Or, if you hold multiple levels of certification within a single track (i.e. you have a CSM and an A-CSM), then you need only renew the highest-level certification with the SEUs and fee. Then your lower-level certification(s) within that track will renew automatically!Please visit our Help Center for more information. Maintain active certifications to continue accessing your member benefits. As a member of Scrum Alliance, you're on an agile journey that extends beyond the classroom. Enjoy continuous learning opportunities, community events, and mentorship from experts. Gain access to the world's largest agile network, offering support and guidance on your agile journey. Exclusive resourcesAccess exclusive members-only content, the Comparative Agility platform, and a curated selection of articles and videos. Event discountsGet discounts on tickets to Scrum Gatherings to network with agile professionals and improve your skills. Member directoryImprove your professional visibility and credibility. Open doors to career opportunities in the global agile community. To earn SEUs, you can choose from three main categories. Additionally, Scrum Alliance recognizes a wide range of learning activities that may not fit strictly into these categories. Think you've engaged in professional development? Then submit SEUs to get the credit you deserve! EducationRead books, attend mentoring or training sessions, watch webinars, or choose from many more independent learning activities that count toward SEUs. VolunteeringWe encourage you to give back to the community. You can earn SEUs by providing non-compensated professional scrum services, volunteering at an event, or helping out at other relevant functions. You are a member of the most educated, practiced organization in the agile community. At Scrum Alliance, we value your learning journey. That's why we ask you to demonstrate your excellence in the form of continuing education that you track with SEUs, so you can proudly maintain a certification with substance. Renew to maintain an active profile in the Scrum Alliance member directory, preserve an in-demand agile badge, get discounts to Scrum Alliance gatherings, and find opportunities to connect with other Scrum Alliance members. Each Scrum Alliance certification is on a two-year renewal cycle from the date you earn it. We will email you 90 days before it expires. You can renew it even after it expires, but it will be valid for two years from that renewal date. Renewing your highest-level certification automatically renews all your other certifications for two years (you may need to submit a certain number of SEUs for those other certifications). Learn more. The cost of renewal varies by the level of certification. For foundational-level certifications, the two-year renewal fee is $100. Advanced-level certifications require a two-year $175 renewal fee, while professional-level certifications are $250 for two years. For those with Certified Agile Leader certifications, the renewal fee is $100. You can renew your certification at any point after it expires. If your certification expires and is not renewed, you will be able to access your member benefits for 90 days. You cannot purchase SEUs. You earn SEUs by engaging in any kind of relevant continuous learning, watching webinars, going to agile events, etc). Scrum Alliance certifications symbolize professional excellence and a growth-oriented mindset in part because of the SEU requirement. Scrum Alliance renewal has two requirements: a fee and SEUs. You cannot opt for one instead of the other. They must be submitted together. Taking any Scrum Alliance certification course will automatically renew any other certifications you have, even if those certifications are inactive. Have additional questions? SF CSM Certification Renewal | CSM Renewal Cost | CSM Renewal Process Scrum is a growing Agile framework that has been gaining momentum in organizations by improving productivity and innovation, and the Scrum Master is the main person to drive the Scrum team towards its process of product development and delivery. We do this by enabling people to apply Professional Scrum through training courses, certifications and ongoing learning all based on a common competency model. Our courses provide a hands-on learning experience led by Professional Scrum Trainers (PSTs) who are experienced practitioners, vetted for their knowledge and teaching ability and go through additional training before they can teach each course. All courses are maintained by course Stewards who work with the 340+ PST community members to leverage their collective expertise. Each PST brings their own real-world experience into the classroom while using a consistent set of learning materials. Scrum.org certification tests are globally recognized as tools to examine, enhance, and certify Professional Scrum knowledge. Tests are decoupled from training to validate people's understanding whether learned in a Scrum.org class or in other ways. Scrum.org supports people wherever they are on their learning journey from beginner to highly experienced practitioner, helping them to grow over time with ongoing learning opportunities and resources. Community members share knowledge and gain new insights from each other leveraging forums, blogs and more. New interactive, hands-on training course designed to empower Product Owners, Product Managers, Business Analysts to understand, leverage, and apply Artificial Intelligence (AI) to support their job and teams.Learn More Scrum at Gillette - Launching a New Razor with Scrum David Ingram, VP of Global R&D at Gillette chats with Dave West, CEO at Scrum.org about how they developed a new exfoliating razor using Scrum, why they chose to use Scrum to develop it and how they adapted to Scrum. They discuss how Gillette mitigated risks and made some culture shifts in the process, while making focus a priority. Pentacomp's Use of the Nexus Framework This case study talks about its work with the Ministry of Health in Poland and how they used the Nexus framework to effectively deliver its systems that have been critical to providing services to patients during and post Covid-19 pandemic. Intralinks Scrum Reboot This Time With The Values In their first attempt at attaining agility, Intralinks took a well-intentioned "mechanical" implementation of Scrum, but failed to deliver against their goal of greater agility. So, they took on a "Scrum Reboot" and succeeded by augmenting the mechanics of Scrum with the fundamental idea of inspection and adaptation and the Scrum Values. Toyota Connected: How the Ideas of the Agile Product Operating Model Shape Portfolio Management Strategy In this episode of the Scrum.org Community Podcast, Dave West and PST Lucas Smith, Director of Agile Program & Services, Toyota Connected, explore how Toyota Connected structures its funding models, defines product life cycles, and manages dependencies in complex product ecosystems. Parmenion Reboots Their Agile Initiatives with an Increase in Backlog Quality of More Than 30% While Parmenion already was using Agile, they realized they needed to work in a way that would maximize value delivery and decided to work with PST Simon Reindl to help them achieve a growth mindset, embrace the Scrum Values and become more outcome oriented. Strobbo Adopts Professional Scrum to Accelerate Go-to-Market Strobbo, an HR platform transitioned to Professional Scrum, focusing on self-management, cross-functionality, and goal-oriented planning. Scrum events were overhauled, and new techniques were introduced to improve engagement and transparency. NEC's Agile Journey with Scrum and Kanban Steve Lizotte, VP of Engineering at NEC explores the importance of collaboration, continuous improvement, and maintaining a customer-centric approach while sharing insights on separating program teams from product teams, finding the right balance between custom solutions and standardized offerings, and more. Yes, we really are the Home of Scrum! Scrum co-creator Ken Schwaber founded Scrum.org in 2009 to be a different kind of organization with people dedicated to a mission of helping people and teams solve complex problems. This mission drives everything we do. We've seen individuals and organizations use the power of Scrum to transform the way they work and deliver value. We want to help others enjoy the same success. As a mission-based organization focused on helping people and teams, we provide many different ways to learn about Scrum and a community to help people learn Go beyond the mechanical aspects of Scrum and transform your mindset and focus while embracing the Scrum Values Continuously learn both in and out of the classroom with different types of learning that range from activity-based training to self-learning at your own pace Professional Scrum Trainers Learn from over 350 highly experienced Scrum practitioners who all bring their real-life experiences to the classroom Get hands-on, interactive, globally consistent training in all classes and opportunities to further grow your knowledge Globally Recognized Certifications Prove your knowledge and get certified with industry respected certification tests that do not require renewal From 27,974 Trustpilot reviews Attained a Professional Scrum certification Taken a Professional Scrum course When it comes to training, are you looking for more than standard corporate training with a trainer simply presenting to the class? Scrum.org training courses embody the principles of Professional Scrum while providing an interactive learning experience. Learners continuously tell us how much they love our courses! Professional Scrum Trainers build our courses together, while bringing their own experiences to the classes they teach. They all use the same teaching materials ensuring consistent learning among your team members. Scrum.org provides a variety of courses including the Scrum fundamentals, role-based learning, and courses that go beyond the framework with training about complementary practices. Enables all members of the Scrum Team to learn Scrum while doing it, experiencing what it is like to deliver products using the Scrum framework An interactive, activity-based course where students gain a strong understanding of Professional Scrum and the role of the Scrum Master. Students gain an understanding of the critical role that the Product Owner plays on the Scrum Team including a number of Product Ownership practices that they can use. Students learn techniques and methods to effectively manage a Product Backlog that clearly expresses the future vision of the product and brings transparency to what is most valuable for the Scrum Team to work on to delight stakeholders and customers. This one-day training course offers a hands-on learning experience to participants, enabling them to enhance value creation by applying discovery and validation skills in product development. Develop proficiency in facilitation skills, so that you can help your Scrum Team better solve problems, create a shared understanding and foster transparency. Learn how to become a better facilitator to improve Scrum Team, stakeholder and customer interactions. Participants learn about the EBM framework through a series of exercises to help leaders guide their teams toward continuously improving customer outcomes, organizational capabilities, and business results. Teaches Scrum practitioners how to apply Kanban practices to their work without changing Scrum, bringing greater transparency and flow. Learn modern UX techniques and practices that effectively enable Scrum Teams to best work with customers and their feedback to deliver higher value. You may think that you can just go to the class and automatically get certified. You may also think that you must take a class to get certified. Both of these assumptions are actually incorrect. There is value in validating the knowledge you gain in the class, and we also understand that some people prefer to self-learn and leverage their experience. Our certifications prove what you know, while our classes teach you. It is recommended to take a class, but not required. Professional Scrum certifications are designed for a variety of experience levels. They are globally recognized and respected because they test a true understanding of Scrum and how to apply it. There are no renewals required on our certifications. Once you earn it, you keep it! There are three levels of Scrum Master certifications to validate and certify your knowledge and understanding of Scrum and the Scrum Master role. There are three levels of Product Owner certifications to validate and certify your knowledge and understanding of the Product Owner role. The Professional Scrum Developer certification validates and certifies your understanding of the Developers accountabilities in Scrum. PSF Skills certification is evidence that you have demonstrated an understanding on how to harness facilitation principles, skills and techniques, and how effective facilitation can help teams move forward toward their desired outcomes. The Professional Agile Leadership I certification validates and certifies an understanding about how leaders can best support their teams in an agile environment. The Professional Agile Leadership - Evidence Based Management certification validates and certifies an understanding about how leaders can best support their teams in an agile environment. The Scaled Professional Scrum certification validates and certifies an understanding of scaling fundamentals knowledge with blogs, videos, webcasts, case studies, whitepapers, and more. View all resources As human beings, we often learn a lot from the experiences of others. There are a variety of ways to learn from other Professional Scrum practitioners including a forum, events, meetups, blogs, podcasts, and more. Join our community! Steven Deneir Scrum Isn't (Just) for Delivering—it's for Improving Scrum exposes what's not working—but doesn't stop there. Its real power lies in what happens next: creating moments for deliberate, continuous improvement. This post explores what that really means, and how teams can turn visibility into action. Chris Belknap Why Some People Will Struggle (or Refuse) to Embrace Scrum Not everyone is ready for Scrum. This blog explores common personality types that resist Scrum ways of working, such as The Pessimist, The Perfectionist, and The Order-Taker, and explains why they struggle. You'll also learn practical ways Scrum Masters can coach these individuals, reduce friction, and guide meaningful change during a Scrum adoption. Cesario Ramos More Teams, More Problems? Consider The Org-Design First Adding teams rarely speeds up delivery it often makes things worse by increasing dependencies and coordination overhead. Study the system first, use proven tools to uncover real design issues. The fix isn't more teams, it's smarter organizational design. Sanjay Saini Facilitator Prompts & Phrases Bank Facilitators can use this prompts and phrases bank to facilitate their sessions. The items are categorized for easy access during the live facilitation Want to learn more? See all blogs Heard enough from us? Learn from our students! We collect reviews through a third party, Trustpilot, and also survey students 6 months after they take a class to check in on the value they gained and learnings they applied. Skip navigation Back Find a course YOUR AGILE COMMUNITY The Global Scrum Gathering is an annual conference hosted by Scrum Alliance in vibrant global destinations. Join agilists of all backgrounds and experience levels to learn, gain fresh perspectives, and get inspired. Plus, explore all that the local destination has to offer! Explore our events and community See a past agenda If you want to excel in today's competitive job market while connecting with a community of supportive professionals, then you belong at the Global Scrum Gathering. The insights you bring home from the gathering support you in any job role, and the community you plug into will provide you with fresh inspiration, support, and enthusiasm for the journey ahead of you.These conferences are ideal for you if you want to: Expand what's possible in your career Connect with bright minds across diverse industries Thrive in a business world where agile is the expected way of working From spontaneous hallway conversations to energizing keynotes and memorable celebrations, discover the highlights from the last gathering in our recap video. Join us next time to see how this unforgettable event can spark new ideas and career momentum, equipping you to drive transformation in your role. The Global Scrum Gathering is an excellent opportunity to join (or rejoin) one of the world's largest agile organizations and enjoy exclusive benefits.When you register as a non-member, you'll have the option to select a complimentary two-year Scrum Alliance membership that starts after you attend the event. Enjoy discounts, access to our partners' tools and software platforms, and opportunities to engage with a global network of passionate agilists. Get involved Apply to join the Program Advisory Team (PAT). You'll collaborate with Scrum Alliance to design the 2026 program for Global Scrum Gathering Vancouver. Represent our community and help bring a memorable event to life. Apply by July 22, 2025. Share your insights as a speaker at the gathering. This is your opportunity to shape the world of work by contributing your thought leadership. Stay tuned for future opportunities. Check out the agenda of speaking sessions from the most recent gathering in the meantime. There's so much to explore and to learn at a Global Scrum Gathering. You'll have many opportunities to meet new people, reconnect with friends, and learn from experienced agilists who are driving results in a broad range of industries. Insights you take home can be applied to your job role now and the future you're building. Most memorable gathering experiences Hop right in to relevant conversations. "The best thing by far was being able to talk to people sharing the same context without the need to explain—a head start to productive conversations!" – Global Scrum Gathering Amsterdam attendee Most memorable gathering experiences Applicable tips and insights "I loved the tangible takeaways from the 50 Shades of Retrospective talk. He provided a lot of ideas on how to switch up retros based on feedback from the teams and provided examples via Miro to us." – Global Scrum Gathering Portland attendee Connecting with agilists. "Opportunities to network with other agile people." – Global Scrum Gathering Amsterdam attendee Prices vary, but early bird and group discounts are available. Wondering if your employer will pay? Global Scrum Gatherings are often considered professional development. Speak to your employer about why investing in your attendance not only boosts your skills but also brings fresh insights and practices back to your team, enhancing your organization's overall productivity and agility. The Global Scrum Gathering is an annual affair, with the dates and locations changing. The next gathering will be held in Vancouver, BC, May 3-6, 2026. Subscribe to emails to be the first to hear of event details and registration.You should also consider attending a Regional Scrum Gathering in your area. These smaller conferences feature the same great opportunities to learn and get inspired, hosted by experienced regional agilists. Scrum Alliance assists with your visa process by providing a fillable letter confirming your attendance at the Global Scrum Gathering. You can obtain this letter by visiting the event's website. Non-members who register for a Global Scrum Gathering have the opportunity to opt in to a complimentary two-year Scrum Alliance membership with their registration. This includes access to member-exclusive resources, discounts, and a global community of agilists. Event registration includes a two-year Scrum Alliance membership for those without an active membership. Please note that this membership does not reactivate any inactive certifications.Learn more about certification renewal. Have additional questions?
