With Gmail, you'll get lots of storage space, less spam, fast search and lots more. But how? Switching to Gmail is actually really easy. After you sign up, you'll see the option to transfer over messages and contacts from your old account. That way, you can pick up right where you left off. Signing up » Signing up for Gmail only takes a few minutes. You'll just need to enter some basic information (like your first and last name), choose an available username, and pick a secure password. Signing in To sign-in to Gmail, visit gmail.com on your computer or on your phone. If it's your first time using Gmail, you may want to check out this Getting Started guide. Transferring mail & contacts » After signing up for Gmail, you can quickly and easily transfer contacts and messages from your old email account. This works for major providers like Yahoo, AOL, Microsoft, and many others (see full list). How to set it up To import contacts and/or messages, first create a Gmail account and sign in. Then click the gear in the top right corner of your account, select Mail Settings, and visit the Accounts and Import tab. There, you'll see an "Import Mail and Contacts" button. Custom "from" address » If you've been using the same email address for a while, you may want to continue to send mail from that address. Luckily, you can switch to Gmail and still send emails that display your old address in the "From" field. How to set it up To add a different "From" address, log-in to your Gmail account and click the gear in the top right corner. Select Mail Settings and visit the Accounts and Import tab. Under "Send Email As" click Add another email address. Follow the steps on-screen (or see these detailed instructions) to complete the set up. Announcing your address » Once you've created a Gmail account you'll probably want to tell your friends and family about your new address. Email your friends from your new account and tell them to contact you there from now on. Setting up an auto-reply You may also want to set-up an auto-reply (sometimes called an "automatic vacation response") for your old account. That way, anyone who emails your old address will get a message letting them know to reach you at your new Gmail address. You're never more than a tap away from your data and settings. Just tap your profile picture and follow the link to "Manage your Google Account". From your profile picture, you can also easily sign in, sign out, or turn on Incognito mode. When it comes to privacy, we know one size doesn't fit all. That's why every Google Account comes with easy-to-use controls and tools like Privacy Checkup so you can choose the privacy settings that are right for you. You can also control what data is saved in your account with easy on/off controls, and even delete your data by date, product, and topic. Your Google Account gives you a safe, central place to store your personal information — like credit cards, passwords, and contacts — so it's always available for you across the internet when you need it. Gmail has always had strong security as a foundation. We work hard to protect you from spam, phishing, and malware, before they reach your inbox. Our AI-enhanced spam-filtering capabilities block nearly 10 million spam emails every minute. No. While you may see ads in your no-cost Gmail account, your emails are private. Google does not scan or process Gmail content for advertising purposes. While Gmail's features are secure enough for most users, some accounts may require additional layers of safety. Google's Advanced Protection Program safeguards users with high visibility and sensitive information, who are at risk of targeted online attacks. Learn more Gmail is part of Google Workspace where you can choose from different plans. In addition to what you love about Gmail, you get a custom email address (@yourcompany.com), unlimited group email addresses, 99.9% guaranteed uptime, twice the storage of personal Gmail, zero ads, 24/7 support, Google Workspace Sync for Microsoft Outlook, and more.
