I was wondering if we can maybe get a production building for axes and saws almost like making the lures and nets? It would make the game so much more enjoyable. It's a struggle to get axes and saws. The game is great, it unfortunately has quite a few flaws, the building of production buildings are very expensive and they take forever to build, the time to make certain items are quite long and the fact that you can't always get to axes and saws.138 people found this review helpfulDid you find this helpful?It's been 10 years. I'm not a fan of the new money grab antics but it's still enjoyable. The Pass needs more benefits. Having all passes and still needing gems for more tasks is a letdown. Players: head to the Hayday reddit and add friends for shop spaces. Devs: add more perks for the farm pass, last log in information for Neighborhoods, a window in the truck bulletin board so we can see the total items needed for all active orders, and show how much we need for upcoming boat shipments.
