While I've purchased items from them in the past, I was referred to them to see if they might be interested in recycling a vehicle that's no longer working. Unfortunately, my interaction with Jeremy Bastarache was far from professional. Jeremy displayed unprofessional behavior at every turn. He engaged in unnecessary "phone tag" games, even though he was handling the matter through his cell phone. He would ask quest July 10, 2014 This place is great! A few years later, with increased business, we built a garage and began filling our 60 acre lot with damaged vehicles. Due to increasing technology, we built a new modern computerized facility in 1994.As one of the largest aftermarket parts distributor in eastern Canada, we expanded by adding a 9,000 square-foot warehouse in 1998. A few years later, the need to expand arose again and another couple of storage buildings were added.We are a family owned and operated business which employs between 20 to 23 full-time employees year round. All our used parts come with a 6 months warranty, while aftermarket parts are guaranteed for 1 year.
