Iran said US Mideast envoy Steve Witkoff left early to catch a flight while others stayed behind for technical talks.Before the talks, enrichment had emerged as the key issue. Then the spacecraft began spinning as it skimmed space toward an uncontrolled landing in the Indian Ocean.SpaceX later confirmed that the spacecraft experienced a rapid unscheduled disassembly, or burst apart. Teams will continue to review data and work toward our next flight test, the company said in an online statement.Satellites were supposed to be deployed during the flight, but that failed.
