## 24 7 drug testing

Call 855-247-2828 or use our Collection Request Form to set up an account and we will assign an account representative to see that all of your testing needs are fulfilled. Our Collectors are DRUG & ALCOHOL TESTING INDUSTRY certified & are certified Breath Alcohol Technicians (BAT'S) All of our collectors are trained and certified in DOT and federal urine specimen collection and breath alcohol standards. This ensures that the collection is performed in a professional and consistent manner, maintaining confidentiality for the donor and security, integrity and control of the specimen. We have over 5,000 onsite collectors nationwide to assist you in your drug testing needs. We provide onsite urine, alcohol, saliva, and hair testing throughout the continental United States. For Employers and TPA's alike, 24/7 Onsite makes onsite testing as convenient as possible with a standardized and professional process. Our dispatchers and collectors are trained in all facets of onsite collections, making the process as simple as possible. We maintain company protocols, Chain of Custody forms, and paperwork dissemination information to ensure the entire collection of nationwide drug testing processes are streamlined. One phone call to our after-hours dispatch, or our office during business hours, and we'll take care of your testing needs. Click On the state or city below to find the testing center closest to you! You can order a test online or give us a call, 855-247-2828. COLLECTORS use by the 24/7ONSITE Network represented that they are in compliance with DOT 49 Part 40 regulations. 24/7ONSITE does not own, endorse or otherwise control these sites. 24/7ONSITE Clients are responsible for any fees regarding any tests cancelled as a result of collection site errors. Make Life Simpler for the Safety Director, Human Resources, TPA and DER 1) Initial Consultation: Contact +MEDRITE to discuss your business's needs, including the types of tests required, frequency of testing, and your preferred location. We'll work with you to customize a plan that aligns with your workplace policies. 2) Scheduling and Logistics: Once the testing plan is finalized, we'll schedule the drug testing to fit your team's availability. Whether it's scheduled screenings, random tests, or post-incident evaluations, our team is available 24/7. 3) On-Site Setup: We can provide on-site drug testing at your company's location or any designated site. +MEDRITE will bring all necessary equipment, including sample collection kits, mobile testing units if needed, and staff to administer the tests. 4) Testing and Sample Collection: Our certified professionals handle all aspects of the testing process, ensuring that samples are collected accurately and securely. We offer a variety of testing methods, including urine, blood, and saliva tests, depending on your needs. 5) Results Reporting: Test results are processed promptly, with secure and confidential reporting. Employers receive results through a confidential portal, and we can provide detailed summaries and interpretations if needed. 6) Follow-Up Services: In the case of positive results, we work closely with your HR team to ensure the proper next steps are taken, including confirmatory testing or further consultations. If you continue to use this site, you consent to our use of cookies.Manage consent When an accident occurs and you need to determine if drugs or alcohol were partially to blame, timing is of the essence. At FastestLabs®, we offer emergency and after-hours drug and alcohol testing to accommodate employers, legal professionals, and others who need immediate testing services—and instant results. We understand the sensitive nature of these issues, which is why all of our testing services are completely confidential and the privacy of our clients is always honored. Our phone lines are open 24/7 to assist you, even if you simply need to schedule regular testing during non-business hours. To learn more, please get in touch with us today at (210) 361-7778 or find a location near you to speak with a member of our staff. To learn more, please get in touch with us today at (210) 361-7778 or contact us online to speak with a member of our staff. While we do our best to always offer same-day appointments and test results within minutes during normal business hours, we understand that sometimes you need testing services at odd hours. This is especially true in instances when you need to screen for very recent alcohol consumption or drug usage. If you wait too long, it can become difficult or even impossible to determine if an individual ingested drugs or alcohol. When you need to determine how an accident occurred, or whether or not drugs/alcohol led to an incident, this is crucial.After Hours Phone Support & Testing 24hrs a day 7 days a week\*\*For appointment scheduling, after hour in-lab testing services (additional convenience fees apply), emergency post accident testing and more where available from participating stores.We offer emergency, after-hours drug and alcohol testing for an array of reasons, including:If you have another reason for after-hours testing not listed above, we're happy to do everything we can to accommodate you. Our friendly and professional staff is able to answer your questions and address your concerns. We often offer same-day appointments and fast, accurate, confidential results. Our drug and alcohol test results are also court-admissible, meaning they stand up to even the strictest legal scrutiny. We are able to test for a range of substances, including alcohol, marijuana, opiates, methamphetamine, cocaine, ecstasy, heroin, and more. Our testing procedures are non-invasive, quick, and simple, and most results are available instantly. Emergency drug testing screens for a range of substances, including marijuana, cocaine, amphetamines, opiates, PCP, and alcohol. Our emergency drug testing 24/7 services ensure accurate and timely results to help employers make informed decisions. We've detected that JavaScript is disabled in this browser. ON-SITE DRUG TESTING AND MOBILE COLLECTION UNITS SAVE YOU TIME AND MONEY!One of the most important things for companies is limiting downtime and keeping their employees in the field working. DISA Global Solutions recognizes this and has tripled our on-site collection capabilities over the past year. DISA provides customers with a completely secure and professional means of drug and alcohol testing. Our experienced staff is responsible for specimen collections, ensuring chain of custody procedures, and upholding absolute discretion and confidentiality with our customers.Our team of experienced on-site collectors is available to cover a wide range of testing needs including: wall-to-wall, periodic, random, and post-accident testing. We also help test at job fairs or new hire orientation. If you need drug and alcohol collections on-site, our teams have the experience, knowledge, and confidence to complete testing in any situation.DISA offers three different on-site collection solutions that can be customized to your industries and specific needs.DISA's On-site Team DISA team members are highly qualified and trained under the strict guidelines of 49 CFR Part 40, and our teams can be ready to deploy at a moment's notice. When DISA team members arrive at your facility, you can rest assured that they will have the experience, training, and specific qualifications required to complete the job. DISA's on-site team members regularly travel all over the United States and are certified to travel to and collect samples from anywhere you operate.We will ensure that your on-site collection areas are properly secured and set up according to the standard regulations of 49 CFR Part 40. Upon arrival, our team will make sure that the collection area is clean and free from the possibility of cross-contamination all while maintaining the integrity of your company and the privacy of the donors. We are capable of serving you at an industrial facility, construction site, warehouse, heliport, port, dock, aboard a motor vessel, or on an offshore platform; we have your needs covered on or offshore.Short-Term On-site TestingDISA has more than 30 mobile collection units, including several that can test multiple individuals simultaneously. By using our mobile collection units at your place of business, you eliminate employees and contractors from having to travel. This means you maintain compliance with less disruption to your daily operations because donors can quickly return to their duties.Short-Term mobile collection units are most commonly used for random drug and alcohol testing (especially during turnaround season), when testing large groups of employees at the same time, and at new hire orientations. If you have a lot of employees or contractors needing to test for an upcoming project, this option is a significant time-saver. You can request a mobile unit to come out to your business for the afternoon, the week, or the month. We can easily customize a schedule to fit your demands; even if the requirements call for a site visit on a regular rotating schedule.Long-Term On-site TestingSome customers prefer to have on-site collection capabilities at their disposal year-round. DISA offers a long-term solution that can remain on-site at your business for however long you may need it. This also allows you to create an employee onboarding process that includes drug and alcohol specimen collections with immediate access.DISA's on-site teams offer a variety of services including:Our on-site services offer customized options that tailor to each customers' individual testing needs while creating a safer, more productive workplace. On-site collections are a quick and efficient solution that allows employers to confidently enforce their drug and alcohol testing program, maintain compliance, and avoid sending employees off-site.Mark Breaux, National Mobile On-site ManagerOn-site Drug Testing Benefits:Reduced Employee Downtime - With DISA's on-site collection capabilities your employees and contractors no longer need to leave your job site to complete drug and alcohol testing. On-site collections reduce employee wait times and limit disruption to your operations.Cost Efficiency - Allows for multiple employees to be tested quicker, while also eliminating travel time, expenses, and liability.Less Opportunity for Cheating - Reduces opportunities for the employee to try and dilute a sample by drinking excess amounts of water ahead of time. It also prevents employees from stopping on their way to a collection site to retrieve a clean urine sample or obtain adulterants.Rather than sending each, individual employee to a collection site, let DISA come to you! 24/7/365. Our on-site services can save your company time, effort, and money, while ensuring your facility remains safe, productive, and drug-free! 5032 Old Grant Rd Ellenwood GA 30294Tel: (404) 963-5679 Fax: (866) 485-7070 Hours of ServiceMonday - Friday 8:30am - 4:30pmSaturday 8:30am - 1:00pm (by appointment only) AFTER HOURS SERVICE AVAILABLE DOT SERVICES Pre-Audit Services Driver FilesTruck FilesTrailer Files Accounting Services MCO/USDOTIFTA ReportingIIRP ReportingUCR2290 Screening Services DOT PhysicalsDrug & Alcohol Testing Pre-Employment Services MVR ReportsBackground ChecksEmployment Verification IFTA QUARTERLY FILING \$75 / TRUCKKYU - \$25 / TruckNY - \$25 / Truck CORRECTIVE ACTION PLANS \$25.00 / Violation PRE-AUDING CONSULT \$150.00NEW ENTRANT AUDING \$150.00 QUALIFICATION FILES DRIVER DQ FILE \$25.00 eaTRUCK/TRAILER FILE \$25.00 ea CONSORTIUM \$200 / YR (0-5 Drivers)\$250 / YR (6-10 Drivers) As a provider of workplace safety and compliance services with more than 30 years of experience, DISA helps thousands of companies across the globe make more informed staffing decisions by offering a broad array of industry-leading screening and compliance services.Each of our services, including 24/7 Post Accident & Reasonable Suspicion Testing, delivers an elevated standard of results because we believe in going beyond what is required to ensure what is fundamentally necessary for our clients, employee dependability, safety, and well-being. For after-hours testing, DISA is available 24/7 for collection site management needs.WHY YOU NEED POST-ACCIDENT AND REASONABLE SUSPICION DRUG TESTSAccording to the National Drug-Free Workplace Alliance (NDWA), more than 74 percent of all current illegal drug users are employed, and up to 40 percent of industrial fatalities in the U.S. can be linked to drug abuse and alcoholism.Testing following an accident is important as it can help determine whether drugs and/or alcohol were a factor, especially when property damage or personal injuries can result from an accident.Post-Accident Drug Testing - Typically occurs after an employee has been involved in an on-the-job accident that may have caused a fatality, serious injury, or significant property damage to determine whether drug or alcohol use was a factor.Reasonable Suspicion Testing -Also known as for-cause or probable cause testing, reasonable suspicion testing is performed when there is evidence or reasonable cause to suspect an employee of drug use. Such evidence is based on direct observation, either by a supervisor or another employee. Reasons to conduct a reasonable suspicion test include:Physical signs - Bloodshot eyes/dilated pupils, slurred speech, unsteady walk, shakes or tremors, unexplained sweating or shivering, fidgeting/inability to sit still, sleeping at work, or difficulty staying awakeBehavioral signs - Attendance problems/tardiness, a pattern of absences or excessive absenteeism, a decline in performance/productivity, acting withdrawn from othersPsychological signs - Unexplained changes in personality or attitude, sudden mood changes, angry outbursts or inappropriate laughing, inability to focus or concentrate
