1.进入官网选择—消费类服务支持 2.输入框输入笔记本背部白色标签序号，S/N或者SNID都可，位置如图 3.根据型号或序列号查看官网对应机型，选择正确“操作系统”后，打开“驱动程序”，如图所示 4.找到对应驱动之后点击下载，如有多个同名驱动建议下载日期较新的那个，下载之后一般为压缩包，右键解压 5.安装驱动（1）官网下载驱动后解压，运行setup应用程序，根据提示一直点击下一步，直到完成后重启电脑。（2）官网下载的驱动解压后，出现根目录，双击install.cmd运行，完成后重启电脑。（3）官网下载的驱动解压后，出现根目录，双击Setup_Driver.cmd运行，完成后重启电脑。方法（2）（3）出现cmd弹窗后敲击回车，完成后重启电脑即可。（有时cmd弹窗会一闪而过，同样重启即可）You can use the Acer Support website to search for content that is specific to your product using your SNID or Serial Number. You can find these numbers near the barcodes on the serial number label on the bottom of your computer as shown in the image below. How to Search the Acer Support WebsiteSearching by serial number or SNID will provide the most detailed information about your product.How to Navigate and Use the Product Support PageAfter you search for your serial number or SNID, you will see your product support page that has four primary sections. You can see descriptions for each section and an image showing the location of each section below.Product Details - Contains specific information about your product like Model Number, Part Number, Warranty Expiration date, and Accessory options.Navigation Tabs - Choose the tab for the type of information you want to see: Drivers and Downloads, Acer Answers (FAQs), Acer Community (discussion posts), or Product Details (specs).Operating System Selector - Choose your Operating System to download the correct drivers. This field will only appear when viewing drivers and downloads.Information Pane - This is the area where you will see information displayed based on the Navigation tab selection in number 2. Searching by MODEL NO. (RMN) will not return a product support pageThe Model No. on the bottom label should not be used when you search the support site because it does not contain enough specific information about your product. You can see the location of the model number on the label and examples of these model numbers below.
