This forum made possible through the generous support of SDN members, donors, and sponsors. Thank you. Hi all, Going to be writing CK in 2 weeks, and I've been doing the Clinical Mastery Series NBME's as I've seen people recommend on multiple threads throughout this forum. Quickly realized that nobody had been posting anything about how they were scoring on these CMS exams vs CCSE vs Actual Step 2 CK. I'm not sure how to interpret these scores in terms of Step 2 CK, though it says 20 is the mean. If you're scoring at 20 on the CMS exams - can you with decent certainty say you'll be scoring somewhere around average for Step 2 CK? Just looking to see if we can get the small pool of extremely smart SDNers to chime in and give an idea on how to interpret these scores for Step 2 CK readiness. (Yes, I will also be taking some CCSEs next week, but just want to know about the CMS exams). Thanks! Members don't see this ad. You must log in or register to reply here. Clinical Science Mastery Series Built to the same content specifications as the NBME clinical science subject examinations, the self-assessments included in this web-based series allow participants to assess their knowledge of the clinical sciences. Self-assessments are available for the following: Clinical Neurology Emergency Medicine Family Medicine Medicine Obstetrics/Gynecology Pediatrics Psychiatry Surgery Each form of the self-assessments listed above has 50 items. Comprehensive Basic Science Self-Assessment (CBSSA) The CBSSA uses multiple choice items based on information typically covered during basic science medical education courses. The CBSSA items resemble the content of those in Step 1 of the United States Medical Licensing Examination® (USMLE®). Each form of CBSSA has 200 items. Comprehensive Clinical Science Self-Assessment (CCSSA) The CCSSA uses multiple choice items based on information typically covered during the core clinical clerkships. The CCSSA items resemble the content of those in USMLE Step 2 CK. Each form of CCSSA has 184 items. Comprehensive Clinical Medicine Self-Assessment (CCMSA) The CCMSA uses multiple choice items typically covered in patient centered encounters. The CCMSA items resemble the content of the multiple choice component of Step 3. Each form of CCMSA has 180 items. International Foundations of Medicine® CS Self-Assessment Built to the same content specifications as the International Foundations of Medicine (IFOM®) Clinical Science Examination (CSE), this web-based self-assessment is for international medical students who want to assess their knowledge of the clinical sciences in advance of taking the IFOM Clinical Science Examination. The NBME offers a web-based self-assessment service for US and international medical students and graduates, who may find it to be a valuable tool as they prepare to take the United States Medical Licensing Examination® (USMLE®). In addition, the NBME also offers web-based self-assessments, as part of a Clinical Science Mastery Series, to US and international medical students who want to assess their knowledge of the clinical sciences covered during a clerkship or medical education course, and an International Foundations of Medicine (IFOM®) Clinical Science self-assessment for US and international medical students who want to assess their knowledge of the clinical sciences in advance of taking the IFOM Clinical Science Examination. After you complete an assessment, you will receive immediate feedback in the form of a performance report. The material presented in these self-assessments is provided by the NBME for educational purposes only. Click here to view the self-assessments that are currently available. Learn about the different types of NBME assessments and find information on your upcoming exam. Click the links below to access information on your exam and other resources, including candidate brochures, content outlines, sample score reports, timing guides, and more. Please visit the Support page to see common FAQs. The Comprehensive Basic Science Self-Assessment is for students planning to take the USMLE Step 1. The Comprehensive Clinical Science Self-Assessment is for students planning to take the USMLE Step 2 CK. The Comprehensive Clinical Medicine Self-Assessment is for students planning to take the USMLE Step 3. The Clinical Mastery Series is for students taking an NBME Clinical Science Subject Exam. The IFOM Clinical Science Self-Assessment is for students planning to take the IFOM Clinical Science Exam.
